reconstructed Slavic settlement.

The investor will preserve the cultural heritage of the site, which is due to open on 1 May 2022. ProKultur gGmbH, a project operator and developer with extensive experience in employment promotion, is looking to strengthen the tourism offering in Neustrelitz.

Managing director Mr Werner Lehmann said, "I'm very pleased with the agreement we have achieved. I would especially like to thank Mr Michael Bohnhoff for his excellent negotiations and the Mayor, Mr Andreas Grund, who provided significant support for the solution." As a result, there will still be an experience for locals and tourists alike to enjoy at the Zierker See lake in the future. The reconstructed settlement is around 1.4 hectares in size. The site features numerous buildings and refuges of various designs built in the Slavic style. Mecklenburg-Western Pomerania was settled by Slavic tribes from the 7th century to the middle of the 12th century. To mark this period, the construction of the Slavic heritage site at Neustrelitz began in 1994. The themed festivals and activity days during the summer are a particular draw.

PLUTA attorney Mr Michael Bohnhoff welcomed the outcome, "The Slavic heritage site has a future. I am delighted that we have found this solution, which will preserve this tourist attraction. The settlement is very well positioned for the years ahead with this investor. I would especially like to thank all of the employees. They have shown great commitment at all times, even during the winter season."
